2008-2009 School Year**

OUTDOOR PLAYGROUND EQUIPMENT

Site: _____ Site Director: _____

Child's Name: _____ Age: _____ Sex: _____

Connections After-School Program will be using the public school facility outdoor playground equipment. By state law, they do not have to meet the Licensing Standards from the state that are required for Licensed Day Operations. If at anytime, the staff at your child's after school site finds any piece of equipment unsafe or in disrepair, your child will not be allowed to play on it until it is repaired.

Connection employees are very aware of unsafe practices on the playground with children and take extra precautions to ensure your child's safety.

Sincerely,

Pam McKey, Connections Director

By my signature below I hereby acknowledge that I have received, read, and understand the playground equipment policies of the Connections After-School Program.
